Grapefruit	<i>Citrus x paradisi</i>
Guarana	<i>Paullinia cupana</i>
Neem	<i>Azadirachta indica</i>
Vanilla	<i>Vanilla planifolia</i>

CO2 EXTRACTS

- These are manufactured on contract by our Indian partners.
 - Super Critical carbon dioxide (SCO₂) extraction, which is achieved by subjecting the raw material to CO₂ at a very high pressure, is an extremely efficient, clean, solvent-free process requiring minimal heat.
 - Control over both the ingredients and the manufacturing process enables us to meet almost any specification.
 - The proximity of many raw materials to manufacturing facility ensures significant savings on transportation costs.
 - Normal minimum order 50kg. Pilot plant available for trials.
 - Extraction by CO₂ covers a wider range of processes and products, with application for the medicinal and body-care market as well as food, beverages, flavours and dyes.
- WHERE APPLICABLE, SPECIES ON OUR FULL PRODUCT LIST CAN BE EXTRACTED BY REQUEST, to provide a range of product types - Essential Oil; Soluble Fixed Oil; Powder; Water Extract; Flavour Extract in Oil/H₂O; Oleoresin; Total Extract; Water Soluble Extract.
- Prices will depend on the extraction method, volume and specification required.
